Other	36	7.18	2.54	11.81

Data Source: Behavioral Risk Factor Surveillance System

Mean: mean number of days in the last 30 days for which the respondent's mental health was not good, based on the question:

UCL Mean = Upper 95% confidence level of mean, based on the weighted number.

All means are weighted to be more representative of the population of Maine and to adjust for non-response.

[&]quot;How many days in the past 30 days whould you say that your physical health ws not good?"

LCL Mean = Lower 95% confidence level of mean, based on the weighted number.
